

These activation instructions can also be found at [www.hp.com/go/ice-license](http://www.hp.com/go/ice-license).

HP Insight Dynamics for ProLiant has separate license keys. Insight Control (IC) is a prerequisite for using the HP Insight Dynamics. Virtual Connect Enterprise Manager (VCEM) software is installed along with Insight Dynamics on the Central Management Server, but is licensed separately for c-Class blade enclosures. VCEM has different license options for c3000 and c7000 c-Class BladeSystem enclosures.

HP Insight Dynamics uses one license key for the Insight Dynamics components. HP Insight Dynamics is supported on specific ML/DL servers and BladeSystem servers. The Insight Dynamics license key contains a single license that is applied to each target system. For successful operation of Insight Dynamics, an Insight Control (IC) license must be applied to each managed target as well.

To configure systems, including applying licenses:

1. Select target servers to apply the license to.
2. In Systems Insight Manager (SIM), go the "Configure -> Managed System Setup Wizard..." menu choice
3. Step through the wizard (make any choices / adjustments as needed), when you get to the "Select Licenses" (5th) step, select the "Add Licenses" button at the bottom.
4. Enter the key or key file and hit "Process"
5. When all keys are entered, close the "Add Licenses" window and return to the "Select Licenses" step
6. Dismiss any pop-ups indicating that a license key was added. There may be one or more of these.
7. Review the licensing table, make adjustments if necessary, and select "Next"
8. Complete the wizard steps and select "Run Now"
9. Review results from the wizard and address any errors.

The following resources are also available on the web at [www.hp.com/go/insightdynamics](http://www.hp.com/go/insightdynamics):

- Access to software downloads
- Installation and user guides
- Support and services information

You can order Insight Software media for your product directly from HP or your preferred reseller. HP recommends that you download and install the latest product software from the web address listed above.

## Support and Software Updates

One year of 24x7 Software Technical Support and Software Updates is included with this software. For more information about this service, see [www.hp.com/services/insight](http://www.hp.com/services/insight). After HP processes your support registration, you will receive a Service Agreement Identifier (SAID). To receive the software updates that you are entitled to, you must use your SAID and access the Software Update Manager (SUM) at the HP IT Resource Center (ITRC) home page: [www.itrc.hp.com](http://www.itrc.hp.com).

## Count on HP for Software Support Solutions

The following support upgrade options are available:

- Three years of 24x7 Software Technical Support and Software Updates
- Four years of 24x7 Software Technical Support and Software Updates
- Five years of 24x7 Software Technical Support and Software Updates

To upgrade your support, or for technical issues using Insight Dynamics products purchased through HP, contact an HP support center:
